PROFESSIONAL SUMMARY

Highly accomplished **Senior Medical Coder (CCS – AAPC Certified)** with **5+ years of progressive experience in Inpatient (IP) DRG coding**, specializing in **ICD-10-CM and ICD-10-PCS** coding for complex medical and surgical cases. Demonstrated expertise in reviewing inpatient medical records, ensuring accurate code assignment, and maintaining compliance with regulatory and reimbursement guidelines.

Proven ability to collaborate with multidisciplinary healthcare teams, improve coding accuracy, reduce claim denials, and support revenue cycle optimization. Adept in **EHR systems, clinical documentation review, anatomy, physiology, and medical terminology**, with a strong commitment to quality, productivity, and continuous improvement in fast-paced healthcare environments.

CORE COMPETENCIES

- Inpatient (IP) DRG Coding
- ICD-10-CM & ICD-10-PCS
- Clinical Documentation Review (CDI Support)
- MS-DRG Assignment & Validation
- Coding Quality Audits
- Medical Records Analysis
- Denial Prevention & Resolution
- Compliance & Regulatory Standards
- EHR & Medical Coding Software
- Provider & Team Collaboration

PROFESSIONAL EXPERIENCE

SENIOR EXECUTIVE MEDICAL CODER – INPATIENT (IP DRG)

Omega Healthcare Management Services Pvt. Ltd.

SEPTEMBER 2019 – MARCH 2023

Worked as a **Senior Executive Coder** handling **high-volume inpatient medical and surgical coding**, ensuring accuracy, compliance, and optimized reimbursement for US healthcare clients.

KEY RESPONSIBILITIES & ACHIEVEMENTS

- Reviewed and analyzed **complete inpatient medical records**, including history & physicals, discharge summaries, operative reports, progress notes, and diagnostic results.
- Assigned accurate **ICD-10-CM diagnosis codes** and **ICD-10-PCS procedure codes** in accordance with official coding guidelines.
- Performed **IP DRG assignment and validation**, ensuring proper grouping and reimbursement accuracy.
- Identified **principal diagnosis, secondary diagnoses, MCCs, CCs, and procedures** impacting DRG outcomes.
- Ensured strict compliance with **CMS, AHA, and ICD-10 official guidelines**, payer-specific policies, and organizational standards.
- Collaborated closely with **clinical documentation improvement (CDI) teams** and healthcare professionals to resolve documentation gaps.
- Supported **denial management initiatives** by improving first-pass coding accuracy and reducing rework.
- Assisted in **claim submission processes**, minimizing claim rejections and denials through accurate coding.
- Conducted **self-audits and peer reviews** to maintain quality benchmarks and productivity standards.
- Provided valuable feedback for **coding software enhancements**, contributing to workflow efficiency and accuracy.
- Maintained high productivity while consistently achieving **quality scores above organizational benchmarks**.
- Participated in ongoing **coding education, updates, and policy changes** to stay current with evolving regulations.

KEY OUTCOMES

- Improved inpatient coding accuracy and reduced claim denials
- Enhanced DRG optimization through accurate MCC/CC capture
- Maintained strong quality and productivity metrics
- Recognized for attention to detail and compliance adherence

EDUCATION

BACHELOR OF ENGINEERING (B.E.) – BIOMEDICAL ENGINEERING

Adhiyamaan College of Engineering, Tamil Nadu
Cumulative GPA: 7.69

CERTIFICATIONS

- **Certified Coding Specialist (CCS) – AAPC**
- **AAPC Member ID: 05121664**

TECHNICAL & PROFESSIONAL SKILLS

MEDICAL CODING SKILLS

- ICD-10-CM (Diagnosis Coding)
 - ICD-10-PCS (Inpatient Procedure Coding)
 - CPT (Working Knowledge)
 - MS-DRG & IP DRG Methodology
-

CLINICAL KNOWLEDGE

- Medical Terminology
 - Human Anatomy & Physiology
 - Pathophysiology
 - Surgical Procedures & Clinical Concepts
-

TOOLS & SOFTWARE

- Electronic Health Record (EHR) Systems
 - Medical Coding & Encoder Software
 - Microsoft Office (Word, Excel, Outlook)
-

QUALITY & COMPLIANCE STRENGTHS

- High attention to detail and accuracy
 - Strong understanding of healthcare compliance standards
 - Ability to work independently and in team environments
 - Excellent time management in high-volume settings
 - Commitment to continuous learning and quality improvement
-

PROFESSIONAL ATTRIBUTES

- Detail-oriented and analytical
 - Strong communication and coordination skills
 - Adaptable to changing coding guidelines
 - Reliable, disciplined, and quality-focused
 - Capable of handling complex inpatient cases
-

DECLARATION

I hereby declare that the information provided above is true and accurate to the best of my knowledge and belief.
